THE SOURCE EVALUATIONS IN THIS REPORT ARE DEFINITIVE.
THE APPRAISAL OF CONTENT IS TENTATIVE.
(FOR KEY SEE REVERSE)

25X1X

1. Between 10:00 a.m. and 2:00 p.m. between Bistra (N 43-20, E 26-34) and Trapishte (N 43-22, E 26-33), more than 12 single-engine aircraft flying in a westerly direction. (See Figure 1 of Appendix A on page 3). The aircraft were flying at medium altitude and passed at approximately 5-minute intervals. Because of the distance, source could not see aircraft. 25X1A
2. Between 2:00 p.m. and 3:00 p.m. on the same day, source observed two or three twin-engine aircraft between Bistra and Trapishte, flying in an easterly direction. They passed singly at about 5-minute intervals. (See Figure 2 of Appendix A on page 3). 25X1
3. Between 11:00 a.m. and 3:00 p.m. between Bistra and Trapishte, more than 18 twin-engine aircraft flying singly in an easterly direction, at about 5-minute intervals. 25X1A
4. Between 9:00 a.m. and 3:00 p.m. south of Turgovishte, more than 18 twin-engine aircraft all flying in an easterly direction at about 5-minute intervals. Later on in the same day, source observed three or four of the same type of aircraft flying in a westerly direction, at about the same location. 25X1A
5. Between 10:00 a.m. and 2:00 p.m. at Irechekovo (N 42-29, E 26-46) village of Yambol Okoliya, seven or eight twin-engine aircraft flying in an easterly direction. 25X1A
6. Later in the same day, source observed, over Irechekovo, three aircraft of a type shown in Figure 3 of Appendix A on page 3, flying in an easterly direction. The aircraft were flying at the same altitude and on parallel courses (See figure 4 of Appendix A on page 3). Two other planes of the same type flew at a higher altitude, in a northwesterly direction, crossing the line of flight of the first group. Two more planes, coming from the north-northeast, crossed over the other two flights. All of these aircraft were jet-powered.
